

Academic Programme Support at NWU: Data and Devices for Students

*Prof Robert J. Balfour, DVC Teaching-Learning**

June 2020

**please note that data presented in this presentation is accurate as at 03.06.20. Data is supplied by CRM and Finance. Data*

changes from day to day.

Principles, Rationale, Practice: Data & Devices

- 1) Provision of data** to be supplied was made **on the basis of need** (self-disclosed) to undergraduate and Honours students.

Why? A financially cautious and thus sustainable approach for the NWU.

How? The verification of student data is managed by Finance, CRM and DVCs Office (with liaison with Faculties, ASAs, SCCs, SRC).

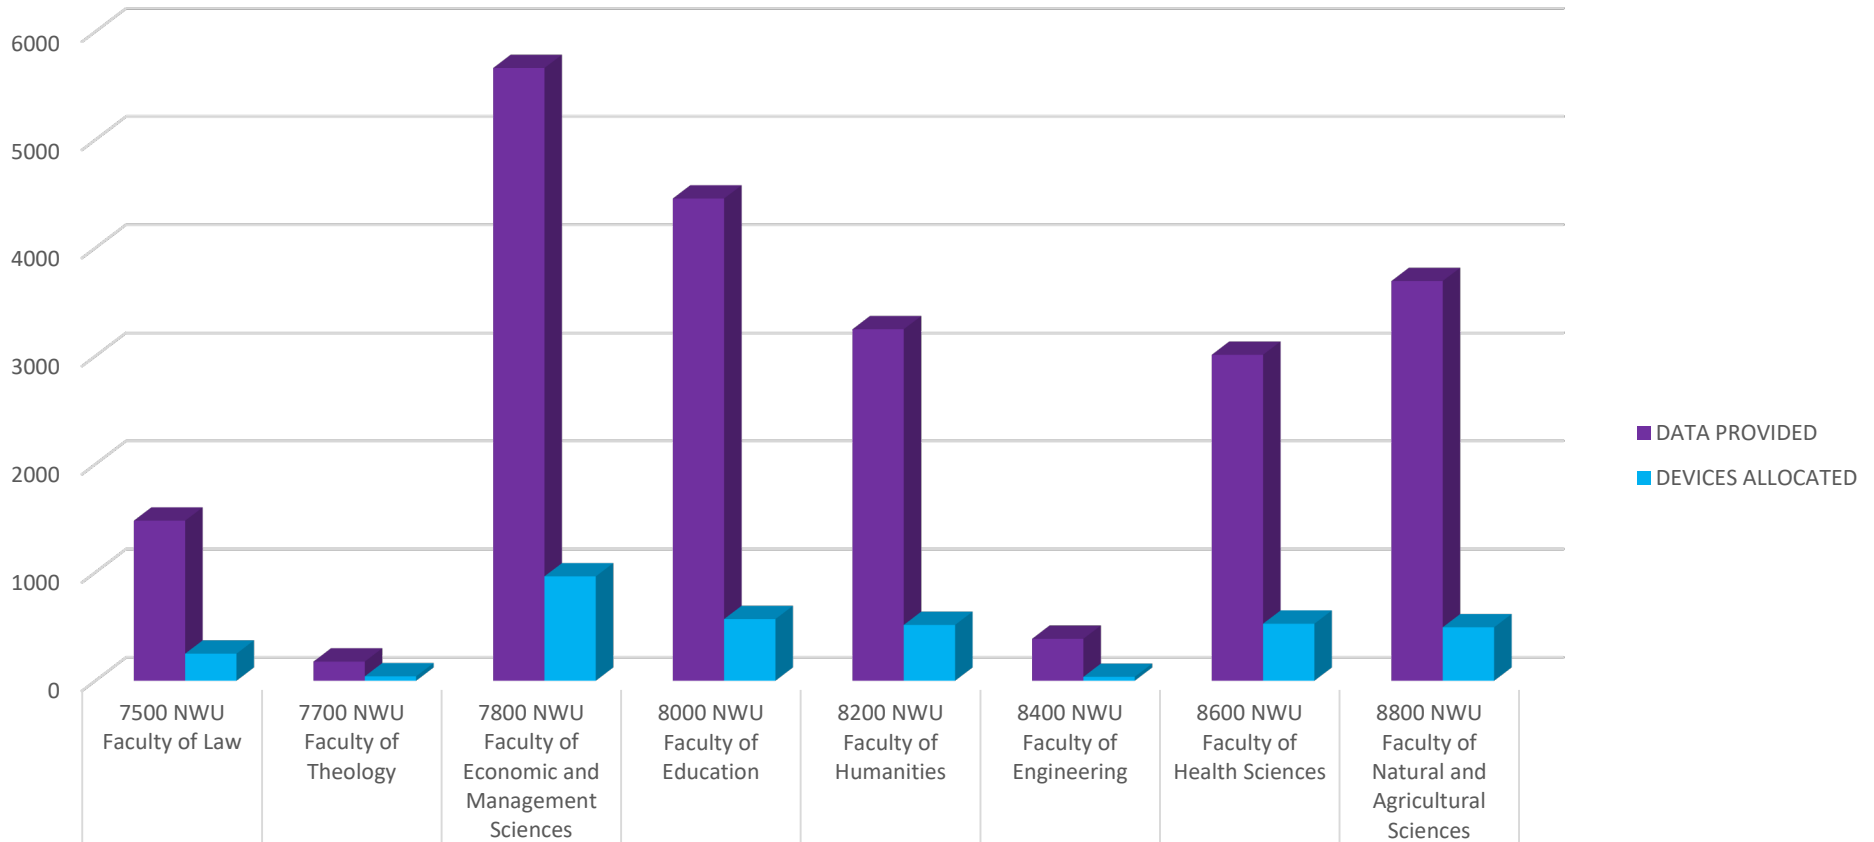

When? Uploads are monthly and do include provision for students not hitherto on the list, or students who have changed or corrected their contact information.
- 2) Provision of devices** was determined by the survey and **prioritised by the Faculties**.

Why? Not enough supply to meet demand. (6500 need; but only 3500+ available)

How? Delivery is based on acceptance by students of devices on a loan basis.

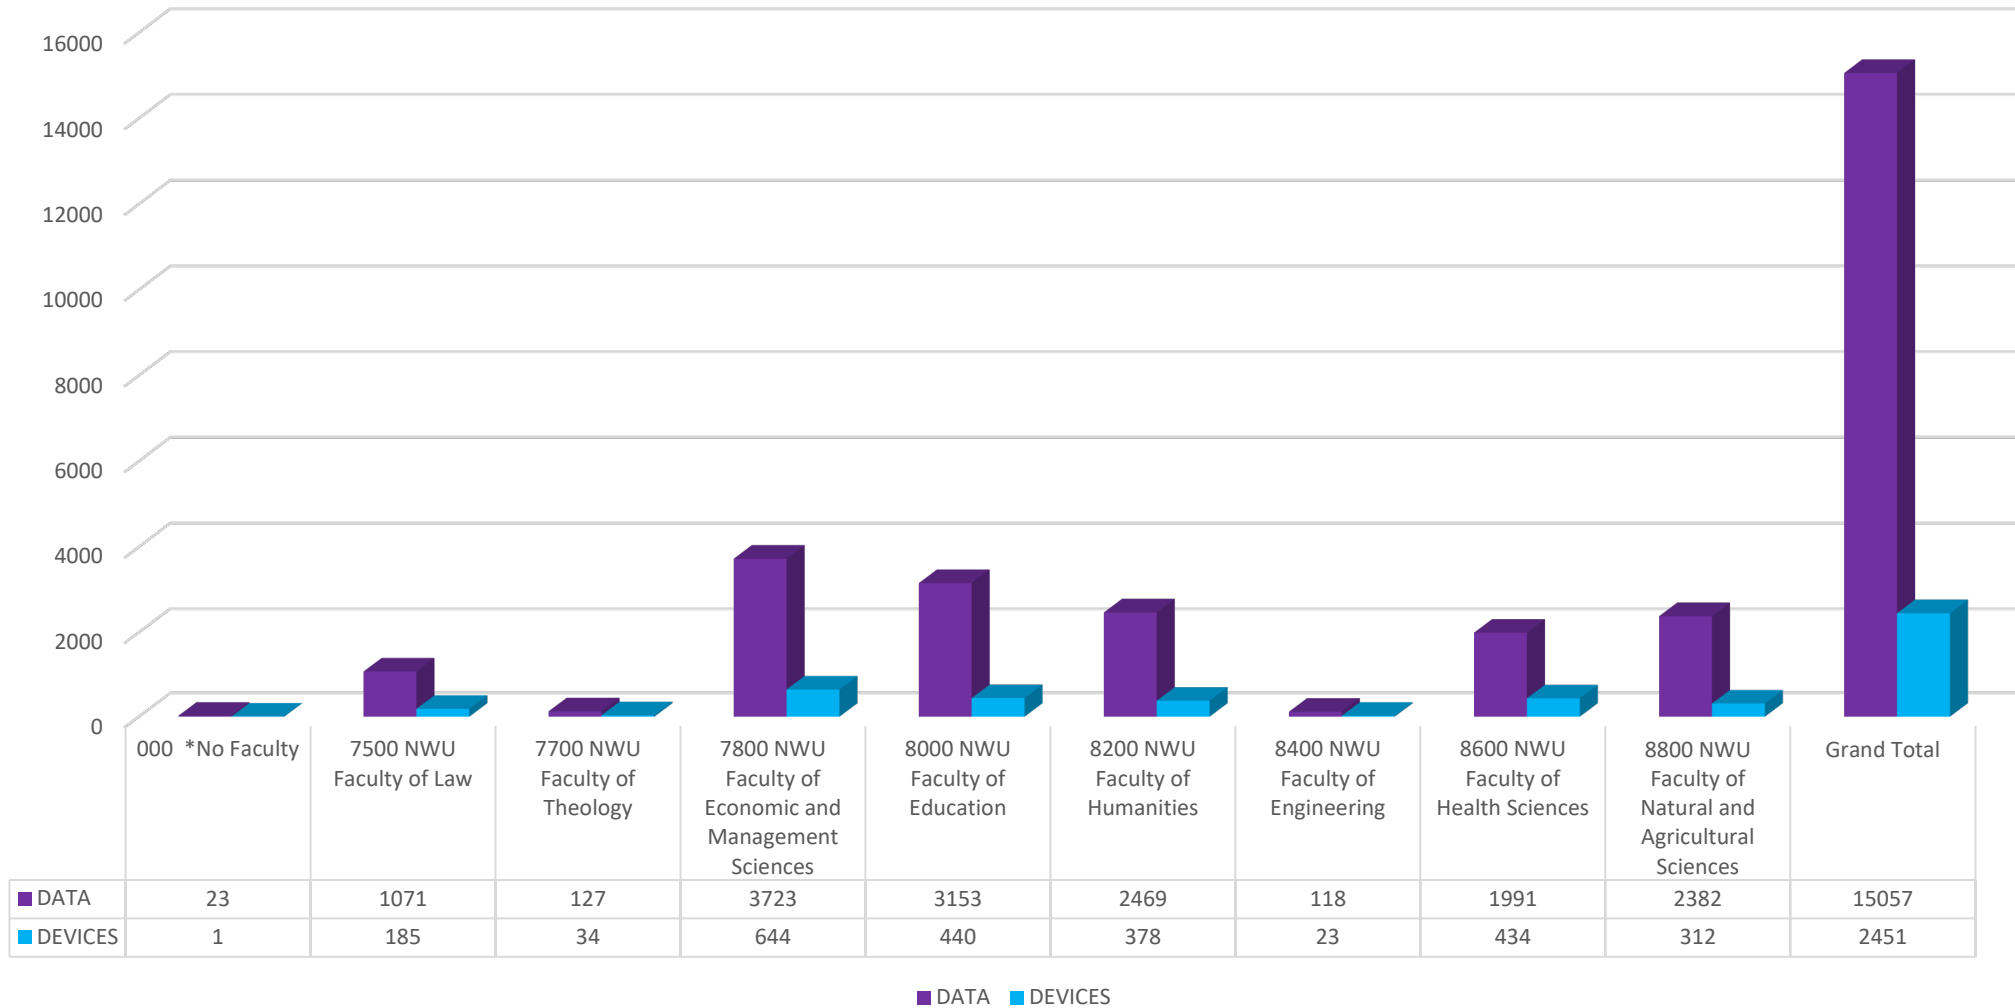

When? Where students do not take up the offer, then the Faculties have to reprioritize the devices allocation and thus there may be delays in delivery.
